Overview:

The Savannah is the perfect size for all ages. Want to wait on the 2nd floor? Just have us finish it to where the plumbing, heating and electric have been run and complete the 2nd floor later. Have your builder construct a garage to enable you to have even more space for little additions down the road.

Notes:

All floor plans can be customized to fit your needs. We design and construct the modular to your specifications. Elevations may include additional builder construction such as porches, garages, decks, etc.
