Overview: A traditional style two-story home with a striking open foyer to the 2nd floor. The great room has a fireplace with plenty of room for multiple seating areas. The breakfast nook has French doors and leads into the kitchen. The dining room could be turned into an office if you chose to have an eating area in the nook or great room. Imagine if your builder added an attached garage...the amount of storage on the 2nd floor or a game room, etc.

Notes: All floor plans can be customized to fit your needs. We design and construct the modular to your specifications.

Elevations may include additional builder construction such as porches, garages, decks, etc.
